

FCC Chair Michael Powell,

It makes me angry that your "leave no monopoly behind" position disregards the public's rights and wants. It is ridiculous that you are sitting back and disregarding our wishes. The people are telling you to stop Sinclair from abusing them. We own the airways and you work for us. Get off your fat privileged ass and do something about it instead of sucking up to your corporate daddies. Don't be a pussy like your father was in letting the Bush crime family lead us to a false war. Step up to the plate and do what's right.
